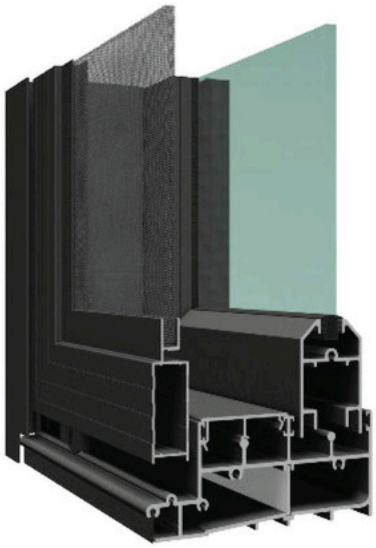
aluPLUS Sliding Door.

aluPLUS

The aluPLUS Sliding Door is a high-performing system designed for top-of-the-range contemporary homes. As a commercial-grade system with 2-track or 3-track options, it delivers exceptional durability while creating large openings without taking up extra space. Complemented by premium hardware, the aluPLUS Sliding Door is a standout feature that elevates the value and durability of any project.



Features & Benefits

- The system accommodates large panels that can be narrow or wide up to 2m
- The head and sill are available with built-in fly-tracks, providing integrated security while maintaining a clean, streamlined look
- It features high-quality hardware, including 150kg stainless steel ball bearing rollers and 2 - 5 wheel cartridges depending on your door configuration
- Sub-framing is available for installation flexibility, making the system easier to fit in a variety of structural conditions
- Compatible with corner designs, enabling versatile layouts
- Uses a Mortice Lock with optional Flush Pull Handle or D Pull Handle that can be colour coded
